

Sweeper Attachment

Sweeper Attachments - Lift trucks made by AUSU, offer great functionality and are very popular for their ergonomic, compact and highly modular design. They offer versatility and stability when handling awkward or heavy loads on the jobsite, while being really safe to drive. With regards to various forklifts, AUSA models have a great diameter of their wheels that helps to guarantee favorable load suspension in the cabin and in the forks. This allows the lift truck to produce an optimal working productivity over variable and uneven surfaces.

The company head office for AUSA are located in Manresa, Spain which is in the region of Barcelona's interior. The chief production facility is likewise at this site and holds a total surface area of more or less 64,000 square meters. AUSA has subsidiaries located in the China, UK, Germany, Madrid, France and Florida. The business exports over sixty percent of the machines they manufacturer and sells its goods throughout two hundred twenty five distributors in over 70 nations.

Each and every lift truck produced by AUSA is presented equipped along with their automatic hydrostatic transmission. This provides automatic braking in deceleration and precision movement of the forklift giving an additional level of safety and productivity. The hydrostatic transmission enables the operator to quickly adjust to the lift truck that is vital if the load is not easy to handle and when terrain circumstances are complicated.

The operator cabin on the AUSA forklift is the only one accessible that is frontal-folded to permit efficient and easy access for periodical upkeep. Highly modular, these cabins are presented semi-closed, soundproof closed or open. For northern weather conditions heated cabins are a choice, as well, air conditioning is included in a back post of the cabin. A wide range of tire widths, grips and attachments are even accessible to suit whatever of the forklift units.

The world's best in compact equipment, AUSA even specializes in site dumpers, tool carrier vehicles and urban sweepers. With sales and service in over 70 countries within 5 continents and over two hundred sales depots globally, AUSA is an industry leader.
